- Carlton Arms' pet policy requires that all pets weigh under 60 pounds at full maturity.
- Pet owners and their pets are subject to certain rules and regulations as specified in the pet addendum.
- Temporary and/or visiting pets are not allowed.
- We accept only dogs, cats, birds and fish. No exotic pets, rodents, reptiles, etc. allowed.
- Two animal limit per apartment.
- Breed restrictions apply.
- Service animals are welcome after written documentation for all reasonable accommodation requests for such animal has been completed. Fair Housing laws allow for landlords to request third party verification of such requests.

2. APARTMENT CARE

A. AIR CONDITIONING AND HEATING

- The fan should be set to the AUTO position for the most economical and even temperature results.
- Thermostat should be set on automatic and heat or cool, as desired.
- Do not block supply registers or return air grills.
- Do not place anything on or around the A/C condensing unit on the patio or balcony; allow 12" clearance all around the unit.
- When turning on the heater for the first time at the beginning of cooler weather, you may detect a burning odor. This is caused by the build-up of dust on the coils. This odor will dissipate after a short time.
- We recommend that the a/c filter be changed on a regular basis. These filters may be picked up at the office.

B. APPLIANCES

1. Dishwasher

- ALWAYS scrape dishes before loading machine.
- Use liquid automatic dishwasher soap only.
- Run garbage disposal prior to operating the dishwasher.

2. Garbage Disposal

- Disposals should be used for wet garbage only.
- Do not place bones, rinds, metals, or coffee grounds, potato skins, etc. down the disposal.
- Do not overload the unit.
- Keep COLD water running before, during, and after the operation

of the unit.

- Do not use a drain cleaner down the disposal.
- If the unit jams, turn the operating switch on and off several times in rapid succession.
- Should the disposal fail to start, press the RESET button located on the base of the disposal, under the sink.

3. Stove/Oven

- When cleaning the stove, do not use steel wool, abrasives, acids, or commercial oven cleaners on the metal, glass, or painted surfaces.
- Please use care when using your stove.
- Leaving a pot or pan *unattended* for even a very brief period of time can quickly result in a grease fire that can cause major damage.
- Self-cleaning ovens info:
- Before using the oven's self-cleaning feature, carefully inspect the inside of the oven to be certain there are no pots & pans or large grease deposits inside. Once activated, the oven will heat to an extremely high temperature and could cause a fire if anything is left inside the oven. The oven door will automatically lock when the self-cleaning feature is activated.
- The door can be opened only after the oven has cooled to a safe temperature. Should something catch fire inside the oven, turn off the circuit breaker to the oven/range to terminate the cleaning cycle. The burning substance should go out quickly and the oven will cool down so the door can be opened.

4. Washer/Dryer

- If you have a washer/dryer inside your apartment, please clean the dryer lint trap after every use. This practice will result in a more efficient operation of the machine, and lower your electricity usage.

C. BATHROOM FACILITIES

- Clogged up drains and sewer back-ups can be prevented by carefully following the guidelines below:
- NEVER dispose of sanitary napkins, tampons or applicators, paper towels, toilet wipes, diapers, Q-tips, chewing gum, cigarettes or cat litter, etc. in toilets.
- If the toilet does overflow, IMMEDIATELY turn off the water at the shut off valve located behind the fixture.
- If unable to clear the clog with the use of a plunger, call the office for assistance.
- Help control unnecessary water loss by monitoring your plumbing fixtures for leaky faucets, faulty flappers and flush valves. If you notice a toilet running constantly or cycling on and off when not in use, please report it immediately so maintenance

can make repairs.

D. CARPET CARE

Simple remedies and techniques for removing stains from carpeting include:

- Scrape, blot or absorb the excess immediately, use a spoon or the back of a knife for semi-solids or greasy substances. For liquids, blot with an absorbent cloth or paper towel.
- Prepare a solution of (3) parts lukewarm water to (1) part white vinegar and blot. Avoid excessive rubbing and wetting of the carpet.
- Do not place furniture on wet carpet.
- Do not place potted plants directly on the carpet without protection.
- To remove dirt and maintain the pile, carpet should be vacuumed routinely. High traffic areas may require more frequent vacuuming.
- Never use bleach or products containing bleach to clean your carpet. These products will cause permanent damage for which you will be held financially responsible.

E. COUNTER TOPS

- To protect the surface of the counter top, please do not use it as a cutting board.
- Do not place hot pots or containers directly on the counter top, as it will permanently mar the surface.

F. ELECTRICAL SYSTEMS

- Circuit breakers are safety devices and should not be turned ON and OFF unless there is a problem.
- A circuit breaker controls each electrical circuit in your apartment. Should an appliance or lamp fail, unplug it from the electrical outlet. Check the breaker panel to determine whether a breaker switch has tripped to the OFF position. If so, flip the switch to the ON position. If this procedure does not restore the power or the breaker trips again, please call the office.
- The light fixtures in the ceiling of your apartment have a maximum UL rating of 60 watts. When replacing the light bulb, do not use bulbs that exceed the 60 watts.

- When moving out, leave the fire extinguisher in the apartment. Do not bring it to the office.

H. FLOORING: TILE, VINYL & PLANK
